

Stainless Steel Insert Stiffeners for HDPE

Product Release

02/2018

3" - 36" Stainless Steel Insert Stiffeners for HDPE

Support your pipe! Ford now carries a full line of stainless steel inserts to help ensure the long-term integrity of your HDPE pipeline. Inserts prevent the pipe from losing rigidity on the end, and keep the gasket or restraint from losing contact with the pipe. With one end tapered and a lip on the other, they are easy to install and can't be over-inserted.

Features:

- Solid design with no wedges (on 4" and larger sizes)
- Type 304 stainless steel per ASTM A240 (with optional 316 stainless steel available)
- Chemically passivated to restore natural corrosion-resistant state
- Available in DIPS or IPS sizes
- Durable, ergonomic design allows for a simple installation and long-lasting life
