## BRASS SADDLE CERTIFICATION

This is to certify that brass saddles, as manufactured by The Ford Meter Box Company, Inc., Wabash, Indiana, meet all applicable standards of ASTM (Specification B62 and/or ASTM B584, UNS/CDA No. C83600) and the American Water Works Association, including AWWA Standard C800 and latest revisions. Brass saddles (in most states) are not required to comply with the no-lead requirements stated in the United States Public Law 111-380.

These brass saddles shall be manufactured from a brass alloy with a metal content consisting of 85% copper and 5% each of tin, lead and zinc (85-5-5-5 spec.).

In addition, all brass goods designed to hold internal water pressure shall be individually tested by the manufacturer as an integral part of the production process. This requirement shall apply to each individual product; "batch" testing is not allowed.

Ford Brass saddles are suitable for above ground and below ground use and if properly installed and maintained under normal service conditions, will effectively seal at the pressure ratings listed below, providing the pipe O.D. remains constant and the appurtenances are properly stabilized. Contact Ford Meter Box if higher pressures are required.

| Saddle | Pipe Size & Type | Working Pressure (PSI) |
|---|---|---|
| S40 | 2” Copper & SDR9 PET | 150 |
| S41 | 2” Copper & SDR9 PET | 150 |
| S70 | DR21 | 150 |
| | DR26 | 150 |
| | Schedule 40 PVC | 100 |
| | Schedule 80 PVC | 200 |
| S71 | DR21 | 150 |
| | DR26 | 150 |
| | Schedule 40 PVC | 100 |
| | Schedule 80 PVC | 200 |
| S90/S91 | DR14 C900 | 150 |
| | DR18 C900 | 150 |
| | DR25 C900 | 150 |
| S902/S912 | DR14 C900 | 150 |
| | DR18 C900 | 150 |
| | DR25 C900 | 150 |

Parties responsible for monitoring and maintaining proper water system design must exercise full responsibility in understanding and upholding the full intent and scope of applicable lead laws.
