CERTIFICATION For FCA STEEL FLANGE COUPLING ADAPTERS

This is to certify that FCA Steel Flange Coupling Adapters shall conform to the following standards. The body sleeve will be constructed of carbon steel meeting ASTM A36 Standard, with a 36,000 psi minimum yield. The end ring will be constructed of AISI 1018-1020 cold rolled or extruded carbon steel with a minimum yield of 40,000 psi or manufactured of ductile iron meeting ASTM A536. Gaskets will be SBR rubber per ASTM D2000. Bolts and nuts are to be high strength low alloy steel, ASTM A242 or A325. Sleeves and end rings will be painted with a shop coat.

The Ford Meter Box Company is registered by Underwriters Laboratories, Inc. to the International Standards Organization for the ISO 9001 standard for quality. This is one of the most comprehensive standards within the ISO series, which establishes a model for quality assurance in design/development, production, installation, customer service and satisfaction.
